IMPORTANT TIPS FOR AUTHORS

NUMBER OF PAGES

A book's number of pages is a major factor determining publishing cost. Every additional page potentially increases cost. Author's seeking paperback publishing should be conscious of this is preparing their manuscripts. For chapbooks, the maximum number of pages permitted is 40 (forty) only.

EDITING & PROOF-READING

We provide free proofreading and layout services for all books submitted for publication. However, this only applies to manuscripts previously edited. Raw first drafts will be billed for editing before publishing fees are charged.

COLOURED PAGES

Books with coloured graphics and images in the inner pages cost more to produce. Authors should either put all images together in a section or consider black-and-white images if they have to use them but have cost concerns. This affects only paperback publishing.
